

WHITEHOUSE JUNIOR HIGH SCHOOL

CAMPUS PLAN 2009 – 2010

WHITEHOUSE INDEPENDENT SCHOOL DISTRICT

WHITEHOUSE JUNIOR HIGH CAMPUS PLAN 2009-2010

PHILOSOPHY

ALL STUDENTS CAN LEARN.
ALL STUDENTS LEARN IN EVERYTHING THEY DO.
ALL STUDENTS HAVE THE RIGHT AND RESPONSIBILITY TO LEARN.

VISION

We envision Whitehouse Independent School District to be a place where learning is a joint concern between educator, parent, student, and community. We believe that the physical and emotional needs of the student must be met for optimum learning.

MISSION

Whitehouse Junior High School, while in the midst of change, is committed to preparing our children to live and work in the changing future.

ALL STUDENTS WILL . . .

Be productive adults wherever they are and contribute to society.
Develop values that will enable them to function in an ever-changing world.
Develop confidence in their self worth, and high self-esteem in such a manner that will develop a positive self-image.
Have skills in decision-making, communication, real life (application and survival), and people/social skills.

COMPREHENSIVE NEEDS ASSESSMENT

Students

Students are the reason for the school. It is the goal of Whitehouse Junior High School to equip all students with the tools needed to not only succeed in our world, but also excel.

Student Strengths:

Our students are typically supported at home and have been given the basic skills to succeed in school. The students are interested in taking a role in making Whitehouse Junior High School a better place to be.

Student Needs:

It is the goal of the school to have at least 90 percent of all students and all student groups passing the Texas Assessment of Academic Skill (TAKS) by the 2010 administration. Although the rate of students passing all TAKS tests is increasing, the rate is still considerably below the desired 90 percent. The school is addressing the needs of individual students by creating a personalized graduation plan for those students who are doing poorly in classes and on standardized testing. We are also providing a plan to meet the needs of students by offering after-school tutorials through the Genesis Program. Compensatory funds will be used to provide some services to the students identified as being at-risk according to the state's definition. All teachers are also required to offer tutorials two days a week, either before or after school. In addition, all 6th and 7th grade students who did not pass the Math TAKS test will be required to give up an elective and take an additional math class for remediation purposes. Also, all "Bubble" students that have been identified in Reading, will be placed in the new "Read 180" program.

Staff

Having a staff of Highly Qualified teachers and staff is the goal of Whitehouse Junior High School through established hiring practices. State law has long required teachers to be degreed and certified in the area(s) to which they are assigned. Federal law as promulgated in Public Law 107-110, No Child Left Behind Act of 2002, reemphasized this state requirement. According to the law, all teachers in states and /or school districts accepting Title I, Part A funds must be "highly qualified" to teach in the area(s) to which they are assigned.

Staff Strengths:

Based on the most current data available, the teachers at the junior high school are highly experienced. The teaching staff is comprised of 75.4% females and 24.6% males. Eighty-one percent of the teachers at least have a bachelor's degree while nineteen percent have a master's degree. There is a good mix of new and experienced teachers, which allows for the proper transfer of knowledge within the profession.

Staff Needs:

A goal for the school is to address teacher in-service to provide appropriate training for teachers in their specific areas. In doing so, we can offer the courses that will best serve our students in preparation for the future.

Parent Involvement

The success of our school is significantly impacted by the participation of the parents and support groups. The Parent-Teacher- Organization (PTO) is working diligently to help improve the communication skills of the school with the community through a campus newsletter available to parents. The newsletter is mailed out every six weeks. Also, all parents are encouraged to sign up for “Family Access” in order to monitor their child’s grades throughout the school year.

Community Involvement

The junior high school will continually look for new and innovative ways of including the community in the activities of the school. The community of Whitehouse is typically involved with the students and faculty of the junior high school through financial help and time commitment.
